

Innovative course

ONE of many AeU's innovative programmes designed to meet the needs of the market is the Master of Information and Communication Technology Management (MICTM) programme for those in management or leadership positions in their organisation.

Developed in close consultation with the market leaders of ICT industry, the Master in ICT Management (MICTM) features a unique blend of academic and industry content.

Offered by the School of Information and Communication Technology (SICT) of AeU, the course is designed for information technology (IT) professionals seeking to move into management positions within the industry.

MICTM is an innovative and intensive programme which will help you understand, conceptualise and manage the interaction and interdependency between advances in information technologies, management practice and organisational change.

MICTM offers an innovative curriculum that employs a real-world problem-solving approach and an outstanding faculty dedicated to teaching and bringing the corporate perspective into the classroom.

Featuring an executive format, the programme allows working professionals from a wide range of industries and areas of expertise to remain on the job while completing their degree.

The programme focuses on the development, management and use of information technologies within and between organisations.

Estimated completion of study up to two years, the programme can be done online, or through blended-learning study mode.

Iewan, a student at AeU's MICTM programme, says that the programme provides an unparalleled and interactive learning experience.

Its curriculum is taught by accomplished practitioners who possess significant management expertise and in-depth knowledge of the latest innovations in information technology.

"This programme is the perfect platform to hone my skills in the IT industry.

"Along with exposure to details in management and business processes behind the industry, MICTM provides an unparalleled, interactive learning experience and excellent industry interaction and outstanding instructors and academic facilitators," says MICTM student at AeU Iewan Mahfuzh Mohamad Ayob.
