

NEW students attending their Orientation programmes at AeU's main campus in Subang Jaya.

Learning for tomorrow with AeU

THIS is innovation. This is extreme personalisation. This is a world-class education that's tailored to the unique needs of working adults. Now you can earn a degree from an accredited open, online and distance learning university. Our innovative approach to teaching and learning will give you the skills you need to make an immediate impact on your career and the edge to conquer whatever comes next. Because this is education designed for you.

Flexibility

Flexibility is part of our mission and we deliver it. Studying with AeU has always been inherently flexible: it's one of the reasons why so many people choose to study with us.

"If you can't get up for a nine o'clock lecture or tutorial in a conventional face-to-face university - tough luck, you're not going to learn that material. You've got to look at somebody else's notes. With AeU you study when it's convenient to you, when you're best able to learn," says Professor Dr. John Arul Phillips, Dean of AeU's School of Education & Cognitive Science. "You can, of course, study with us from any place in the world, provided you're proficient in English and have a broadband internet connection."

"My career as an educator at Star Bright Kindergarten is very demanding and leaves little room for free time. The flexibility of the

courses I was interested in studying, combined with the support network of academic facilitators. AeU offers extreme flexibility. It means that, no matter where I was deployed across the country, as long as I had wifi I could complete my studies with no worries," says Alicia Chen, an MEd Graduate of 2014.

"In recent years, we've taken flexibility to a new level by combining our experience of online & open distance learning with the very latest technology. In fact, although we first opened our doors to the world over ten years ago, it seems as though the rest of the world is only just starting to catch up with us! From downloading course materials on your mobile phone to drafting assignments on your tablet, our studies are more portable, accessible and flexible than ever before," adds Prof. John.

"AeU is a vibrant university and you can learn in lots of different ways. It's interactive, dynamic and very modern, which is why I would recommend the AeU as the best choice for people who have commitments. I can't think of a better way to study. It suits any lifestyle," says Melissa Ng Su Lin, MEd Graduate of 2017

Festive Promotion for Online MEd

AeU is positioned as one of the top ODL universities in Asia for innovation in technologies and teaching. We deliver a practical and relevant education that prepares you to meet the professional chal-

lenges you will face in your future. Every year, hundreds of life journeys begin here. Now it's your turn.

AeU's Online Master of Education (MEd) programme consists of 9 core courses plus 2 courses and a project paper, selected from one concentration area. You can choose one out of 10 concentration areas to specialise - Early Childhood Education, Teaching English as a Second Language, Educational Management, Educational Psychology, Instructional Technology, Curriculum & Instruction, Assessment & Evaluation, Science Education, Mathematics Education and Teaching Bahasa Malaysia.

Currently AeU is having a festive promotion. To experience learning online with AeU, apply now for our Online MEd programme. The MEd Online programme can be completed within 18 months.

The Festive Special fee offer for an Online MEd programme is RM11,880 (all inclusive). For enquiries, please call / WhatsApp 010-7699903 or email onlinemed@aeu.edu.my or visit Online MEd microsite at onlinemed.aeu.edu.

Admission for AeU's Online MEd programme is through regular entry and may also go through the flexible APEL entry for those who lack the paper qualifications requirements stipulated in the regular entry. For APEL, candidates are assessed by their prior learning and work experiences to compensate for the lack the regular requirements.
