

Online studies made easy for adults

ASIA e University (AeU), a leader in open, online and distance education, offers degrees via blended and online learning since 2008. The academic standards required for all blended and online programmes are as high and on par with those who study on-campus and the qualification is of equal value.

AeU graduates are employed throughout the world and its degrees are locally and internationally recognised.

One of AeU's most popular programmes is the Online Master of Education (Online MEd), which commands the highest flexibility and lower course fees.

Most students are working professionals at an average age of 35 and older with established careers and families.

The programme is 100% online. Learners have unparalleled flexibility to study at their convenience and move their skill set to the next

level without interrupting their career. The virtual classroom is always open and learners do not need to synchronise with anyone else. They can interact with their facilitators and fellow students anytime anywhere.

From the start, they will be in constant discussions with online academic facilitators, receiving regular feedback and also continuous support from the online student support team.

Learners will have access to the engaging, easy to navigate and rich online platform, myPLS. For over a decade, AeU has developed the myPLS learning platform, which is not only mobile-friendly but also acts as a one-stop centre for all learners' needs.

Besides a well-equipped conventional library, AeU also houses thousands of online resources. The extensive online library resources are specially designed to provide global accessibility for a truly per-

Lim is an MEd Graduate of AeU.

sonalised learning experience.

The Online MEd consists of nine core courses plus two courses and a project paper, selected from one concentration area. You can choose one out of 10 concentration areas to specialise.

The Online MEd can be completed in as little as 18 months or spread over a number of years.

It is approved by the Ministry of Education, accredited by the Malaysian Qualifications Agency and recognised by the Public Service Department (Jabatan Perkhidmatan Awam).

Cindy Lim Suan Choo, 50, is a principal at Trinity Methodist Church Kindergarten, Penang and JET Learning Land English Programme education director. She is an AeU Master of Education (MEd) graduate of 2015 with a concentration in Early Childhood Education. She is also a part-time lecturer at Sentral College, Penang.

Lim says, "My studies has been a very important milestone in my professional growth and personal development. AeU's MEd programme is tailored to fit my busy schedule and I could learn anytime anywhere as long as there is Internet connection. The knowledge gained has allowed me to progress in my management and strategic planning skills and

strengthened my academic training. Thanks to AeU, I developed the confidence to open a new Cambridge English Centre, where I train teachers and facilitate creative writing programmes," she affirms.

Admission for AeU's Online MEd is through Regular Entry or through Accreditation of Prior Experiential Learning (APEL) entry, which accepts candidates even if they lack the paper qualifications for regular entry.

APEL candidates are assessed by prior learning and work experiences to compensate for the lack of regular requirements.

Apply now to enjoy the Merdeka Special fee of RM8,800 before the offer ends on Sept 28.
